Excerpt from Early Christian Hymns: Translations of the Verses of the Most Notable Latin Writers of the Early and Middle Ages Immediately upon the appearance of that poem in print, the author was urged by scholarly friends, both clerical and lay, lovers, like himself, of the fine old church songs, to try his hand at others, especially those used for liturgical purposes and found in the Breviary and Missal. The more of these translations that appeared, the more popular they seemed to become. The very act of translating afforded a singular pleasure and exhilaration of spirit. In a short time the number of English renderings on the authors hands became so great, and the requests of friends to collect them in a volume, so urgent, that the present work is the result.
